HANNA SHERIN

MERN Stack Developer

✉ hannasherinpp2000@gmail.com ☎ +91 9447746641 Malappuram , Kerala GitHub linkedIn

PROFILE SUMMARY

BSC graduate with a strong foundation in **computer science and web development**, proficient in HTML, CSS, Bootstrap, JavaScript, and React.js. Hands-on experience developing **responsive and component-based web applications** through academic and personal projects. Familiar with **Git and version control**, with a focus on writing clean, maintainable code and building user-friendly web solutions. Seeking a **Web Developer** role to apply technical skills, contribute to software development projects, and grow within a professional development environment.

TECHNICAL SKILLS

- **Frontend Technologies:** HTML5, CSS3, React.js, Redux Toolkit, Tailwind CSS, Material-UI, Bootstrap 5
- **Backend Technologies:** Node.js, Express.js, MongoDB, RESTful APIs
- **Programming Languages:** JavaScript
- **Tools and Libraries:** Git, GitHub, Postman
- **Database:** MongoDB

PROFESSIONAL EXPERIENCE

TECHOLAS TECHNOLOGIES PVT. LTD. | Calicut, Kerala
February2026 –Present

MERN Stack Intern

- Developed and worked on web applications using **MongoDB, Express.js, React.js, and Node.js**.
- Built and integrated **RESTful APIs** using Node.js and Express.js for frontend-backend communication.
- Implemented practical features including **authentication, CRUD operations, form validation, API integration, and State management**
- Designed and managed **MongoDB databases**, including collections, schemas, and data relationships.
- Developed responsive and reusable **React.js components** using JavaScript, HTML5, CSS3, and Bootstrap/Tailwind CSS.
- Participated in **debugging, testing, and code review**, identifying and resolving frontend, backend, API, and database issues.
- Used **Git and GitHub** for version control, collaboration, and project management.

PROJECTS

Tiktokz – Watch E-commerce Website : GitHub

- Developed a watch e-commerce website using **HTML5, CSS3, and JavaScript** to showcase watch collections and product details.
- Implemented a **Shopping Cart** functionality to allow users to add, view, and manage selected watch products
- Integrated a **Wishlist** feature to enable users to save and access their favorite watches.

- Designed interactive product listings and navigation using **JavaScript** to enhance the browsing experience.
- Built responsive user interfaces using **HTML5 and CSS3** for seamless access across desktop, tablet, and mobile devices.
- Applied **Git and GitHub** for version control and source code management.

Voyara - Tour Package Booking Website : GitHub

- Developed a tour package booking platform using **React.js, JavaScript, HTML, and CSS** to explore destinations and travel packages
- Built reusable React components for a consistent and maintainable user interface.
- Implemented dynamic rendering of destination and package details using **React.js**.
- Integrated **React Router** to enable navigation between destinations, package details, registration, and login pages.
- Developed user registration and login workflows using **React.js and JavaScript** to support the booking process.
- Managed application data and implemented API communication using **Axios, Redux, and JSON Server** for destination and package management.

EDUCATION

Bachelor of Computer Science(BSC) 2018-2021 MEASS Areekode

University of Calicut
